SUB UTOPIA EM COLOUR EVO

Specification sheet

HANDCRAFTED IN FRANCE

The Sub Utopia EM is the last building block of the Utopia range and the logical follow-up to the ultimate multi-channel reference speaker; Viva Utopia. With this subwoofer, Focal focused all its know-how on an entirely passive design, based around a 13-inch Electromagnet woofer, that appeared with the Grande Utopia EM. An ideal complement to the Viva Utopia, this subwoofer can be used with any model of the range, including the Grande Utopia EM. Its secret? A clever stackable design (up to 3 subwoofers tall) that can answer even the most demanding power needs. The unequaled punch of EM technology, with the refinement and finesse of Utopia.

Gamma structure
MDF panels of 2" (5cm) for a stable mechanical reference
Anti-vibration heavy structure

13" (33cm) "W" Electro-Magnet EM bass driver
Extremely powerful Electro-Magnetic EM technology
3rd generation composite sandwich technology, laser cut-out
22 to 500Hz frequency response
Removable woofer grilles

Available in Top version (flat) EM/T
And stackable (machine-cut) EM/S

Sub Utopia EM/T (Top version)

Sub Utopia EM/S (Stackable version)

Dual large diameter front ports
No air flow or distortion noises
No dynamic compression

Key features

- High-End passive subwoofer
- High-efficiency 13" (33cm) Electro-Magnetic "W" cone woofer; Focal exclusive technology
- Stackable (up to 3 subwoofers tall)
- Manufactured in France by Focal
- Almost 130dB SPL at 1m (in a corner)

Standard Finishes

Type	**Stackable passive subwoofer**
Drivers	Electro-Magnetic 13" (33cm) "W" bass driver
Frequency response (+/- 3dB)	22Hz - 500Hz
Response at - 6dB	19Hz
Sensitivity (2.83V / 1m)	93dB
Nominal impedance	8Ω
Minimal impedance	5,5Ω
Recommended amp power	500-1000W
Dimensions (HxLxD)	25 x 19 x 24 1/2" (63.4 x 48.3 x 62.2cm)
Weight (unit)	158.5lbs (72kg)

FOCAL®
