

UNITI STAR LITE

Product Sheet

Uniti Star Lite has been engineered as a natural evolution of Uniti Star, preserving its audio performance, design language and user experience, while responding to the realities of today's landscape and listening habits. Designed for modern listening, Star Lite has a streamlined internal architecture and a renewed focus that delivers an articulate sound with streaming and digital sources at its core. Enjoy the convenience of seamless multiroom listening and effortless control.

Key Features

- Uses Naim's NP800 streaming card with LVDS balanced digital signals for low noise. Stream internet radio stations, music from Spotify Connect, Tidal (and Tidal Connect), Qobuz (and Qobuz Connect), AirPlay2, Chromecast Built-In, UPnP™ servers, USB attached storage and Roon Ready
- AptX Adaptive Bluetooth®
- App control continuity through all the Naim ranges: Focal & Naim App
- Multi-room capability with other Naim and Focal streaming products
- ZigBee RF bi-directional remote control, line of sight not needed, volume changes reflected on the remote
- 5.0" colour display
- 0.5W standby power. Using two internal power supplies: one is a high-quality audiophile linear type, based on a large toroidal transformer. The other is a highly efficient SMPSU for 0.5W power consumption
- Galvanic isolation of control and audio circuits
- Voice control via Google Assistant and Apple Siri
